V.21
1962
no.1-2

Contents of Volume 21

No. 1. JANUARY–FEBRUARY 1962

VIRUSES AND NEOPLASIA
Possible mechanisms of virus carcinogenesis. *Henry S. Kaplan* ... 1
Morphologic responses to tumor viruses. *C. J. Dawe, L. W. Law, W. D. Morgan, and M. G. Shaw* ... 5
The mouse mammary tumor virus. *K. B. DeOme* ... 15
The murine leukemias. *John B. Moloney* ... 19
Experimental studies of human tumors. *James T. Grace, Jr., Edwin A. Mirand, Stephen J. Millian, and Richard S. Metzgar* ... 32
GASTROENTEROLOGY
Intestinal absorption with special reference to amino acids. *Halvor N. Christensen* ... 37
Physico-chemical state of lipids in intestinal content during their digestion and absorption. *Alan F. Hofmann and Bengt Borgström* ... 43
Developmental adaptations of alkaline phosphatases in the small intestine. *Florence Moog* ... 51
Morphological response of intestinal mucosa to enteric bacteria and its implication for sprue and Asiatic cholera. *Helmuth Sprinz* ... 57
Biological implications of intestinal endotoxins. *H. A. Ravin and J. Fine* ... 65
COMPUTER TECHNIQUES IN PHYSIOLOGY
Introduction to the principles of digital and analogue computers. *Lysle H. Peterson* ... 69
Analogue and digital computer representations of biochemical processes. *Britton Chance, Joseph J. Higgins, and David Garfinkel* ... 75
Use of analogue computers in the study of control mechanisms in the circulation. *Homer R. Warner* ... 87
Some results of computer simulation of neuron-like nets. *Belmont G. Farley* ... 92
Mathematical simulation of certain receptor and effector organs. *Richard W. Jones, Daniel G. Green, and Robert B. Pinter* ... 97
Some applications in EEG analysis. *Reginald G. Bickford, E. William Poole, and Charles E. McCarthy* ... 103
Mathematical experimentation and biological research. *Richard Bellman* ... 109
TOPICS OF CURRENT INTEREST IN BIOCHEMISTRY
Synthesis and function of the DNA-like RNA. *Elliot Volkin* ... 112
Biosynthesis of ribopolynucleotides. *Samuel B. Weiss* ... 120
Protein synthesis from aminoacyl-soluble ribonucleic acid. *Daniel Nathans, Günter Von Ehrenstein, Robin Monro, and Fritz Lipmann* ... 127
Biosynthesis of bacterial cell walls. *Jack L. Strominger* ... 134

No. 2. MARCH–APRIL 1962

ABSTRACTS OF PAPERS PREPARED AT FEDERATION ANNUAL MEETING ... 1

No. 3. MAY–JUNE 1962

REGULATION OF THYROIDAL FUNCTION
Regulation of TSH secretion. *E. M. Bogdanove* ... 623
Synthesis and release of thyroid hormones. *N. J. Nadler* ... 628
Transport of the thyroid hormones. *William P. Deiss, Jr.* ... 630
Peripheral actions of thyroid hormones. *S. B. Barker* ... 635
PHYSIOLOGY OF THE CEREBRAL CORTEX
Analysis of cellular mechanisms of direct cortical responses. *Sidney Ochs* ... 642
Spreading depression and hypothalamic behavior mechanisms. *James Olds* ... 648
Water and electrolyte distribution in central nervous tissue. *A. Van Harreveld* ... 659
Blood-brain barrier: fact or fancy? *Robert D. Tschirgi* ... 665
Analysis of scientific personnel data for experimental biology. *Ruth C. Habel* ... 672

No. 4, PART I. JULY–AUGUST 1962

SCIENCE IN THE SPACE AGE
Introductory remarks. *Floyd S. Daft* ... 679
Impact of progress in space on science. *Hugh L. Dryden* ... 681
Biology in space. *Norman H. Horowitz* ... 687
IMMUNOCHEMISTRY
Introduction—structures of some determinants of antigenic specificity. *Elvin A. Kabat* ... 692
Antigenic determinants of dextrans and blood group substances. *Elvin A. Kabat* ... 694
Determinants of specificity in Salmonella: changes in antigenic structure mediated by bacteriophage. *P. W. Robbins and T. Uchida* ... 702
Determinants of specificity of proteins, nucleic acids, and polypeptides. *Lawrence Levine* ... 711
Antigenic determinants of conjugated proteins in relation to allergic responses. *Herman N. Eisen* ... 721
FEDERATION FINANCIAL REPORTS ... 726

No. 4, PART II. SUPPLEMENT No. 11

INTERNATIONAL CONFERENCE ON DIET, SERUM LIPIDS, AND ATHEROSCLEROSIS (Proceedings of a Conference held in Rye, New York, October 8–10, 1961) ... 1

No. 5, PART I. SEPTEMBER–OCTOBER 1962

FEDERATION OF AMERICAN SOCIETIES FOR EXPERIMENTAL BIOLOGY
Federation Board and Committees ... 727
Former Boards and Committees ... 727
Constitution and Bylaws ... 731
Placement Service ... 733
AMERICAN PHYSIOLOGICAL SOCIETY ... 734
AMERICAN SOCIETY OF BIOLOGICAL CHEMISTS ... 738
AMERICAN SOCIETY FOR PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS ... 743
AMERICAN SOCIETY FOR EXPERIMENTAL PATHOLOGY ... 747
AMERICAN INSTITUTE OF NUTRITION ... 750
AMERICAN ASSOCIATION OF IMMUNOLOGISTS ... 756
MEMBERSHIP OF ALL SOCIETIES
Alphabetical List of Members ... 759
Summary of Membership ... 832
Deceased Members ... 832
Geographical List of Members ... 833
List of Members by Society ... 854

No. 5, Part II. SUPPLEMENT No. 12

BIBLIOGRAPHY OF THE BIOLOGICAL EFFECTS OF MAGNETIC FIELDS 1

No. 6. NOVEMBER–DECEMBER 1962

GASTROENTEROLOGY

Recent functional interpretations of intestinal morphology. *Helen A. Padykula* 873

Follow-up of intestinal biopsy in nontropical sprue after gluten-free diet and remission. *C. T. Ashworth and W. C. Chears, Jr.* 880

Hypothesis for mechanism of intestinal active transport of sugars. *Robert K. Crane* 891

Importance of diet, species, and intestinal flora in bile acid metabolism. *Oscar W. Portman* 896

Factors in sterol absorption. *C. R. Treadwell, L. Swell, and G. V. Vahouny* 903

Absorption of gamma globulin by the small intestine. *Loyal C. Payne and Connell L. Marsh* 909

Pathology, absorption, transport, and activity of digestive enzymes in rat jejunum parasitized by the nematode *Nippostrongylus brasiliensis*. *L. E. A. Symons and Donald Fairbairn* 913

VIRAL NEOPLASIA

Biologic response of nephrogenic cells to avian myeloblastosis virus. *Guy de Thé, Ursula Heine, Hideo Ishiguro, J. R. Sommer, Dorothy Beard, and J. W. Beard* 919

Tumors produced in hamsters by SV_{40}. *Bernice E. Eddy* 930

Micromorphology of murine tumor viruses and of affected cells. *A. J. Dalton* 936

Further correlations of physical and biological properties of mouse mammary tumor agent. *Dan H. Moore, Ernest C. Pollard, and Cushman D. Haagensen* 942

Architecture and development of tumor viruses and their relation to viruses in general. *A. F. Howatson* 947

MECHANICAL ASPECTS OF CARDIAC MUSCLE

Introduction to muscle mechanics, with a glossary of terms. *John W. Remington* 954

Mechanochemical basis of muscular contraction. *Richard J. Podolsky* 964

Implications of muscle mechanics in the heart. *Edmund H. Sonnenblick* 975

Discussion. *Donald L. Fry* 991

Energetics of isolated muscle. *William J. Whalen* 994

Comments on paper by Dr. Whalen. *Wallace O. Fenn* 999

Viscoelastic determinants of muscle contractility and "cardiac tone". *Robert S. Alexander* 1001

MECHANISM OF ENZYME ACTION

Mechanism of action of firefly luciferase. *W. D. McElroy and H. H. Seliger* 1006

Mechanism of glutamic acid activation and glutamine synthesis. *Alton Meister, P. R. Krishnaswamy, and Vaira Pamiljans* 1013

Mechanism of action of transaldolase. *B. L. Horecker, T. Cheng, E. Grazi, C. Y. Lai, P. Rowley, and O. Tchola* 1023

Specificity and catalytic power in enzyme action. *D. E. Koshland, Jr., John A. Yankeelov, Jr., and John A. Thoma* 1031

COMPARATIVE BIOCHEMISTRY

Comparative aspects of carbohydrate metabolism. *Ernest Bueding* 1039

Assimilation of organic compounds by photosynthetic bacteria. *S. R. Elsden* 1047

The evolution of a protein. *Vernon M. Ingram* 1053

Oxygen and biosynthetic patterns. *Konrad Bloch* 1058

SYNTHESIS OF COMPLEX POLYSACCHARIDES

Structural studies of mucopolysaccharides of connective tissues. *P. Hoffman and K. Meyer* 1064

Biosynthesis and metabolism of acid mucopolysaccharides of connective tissues. *Albert Dorfman* 1070

Metabolism of sialic acids and D-mannosamine. *Saul Roseman* 1075

Teichoic acids in walls and cells of gram-positive bacteria. *J. Baddiley* 1084

Biosynthesis of pneumococcal capsular polysaccharides. *George T. Mills and Evelyn E. B. Smith* 1098

ACTION OF DRUGS ON SUBCELLULAR PARTICLES

Effects of alkylating agents and thioacetamide on nuclear metabolism. *Harris Busch, Helen Adams, and Masami Muramatsu* 1093

Action of antihistamine and other drugs on ion and water movements in cells and mitochondria. *J. D. Judah* 1097

Effect of phenothiazines on neurohumor-containing particles from mammalian brain. *Paul S. Guth* 1100

Biochemical aspects of triethyltin toxicity. *Theodore M. Brody and Kenneth E. Moore* 1103

Interaction of drugs and hepatic microsomes. *James R. Fouts* 1107

CORRELATION OF CELLULAR ULTRASTRUCTURE AND FUNCTION IN PATHOLOGICAL TISSUE

Introductory remarks. *Donald W. King* 1112

Cytopathology of virus infection. *V. Defendi* 1113

Cytochemical injury of X radiation. *J. L. Van Lancker* 1118

Molecular pathogenesis of experimental liver cancer. *Henry C. Pitot* 1124

Pathological changes in cytoplasmic organelles. *Alex B. Novikoff and Edward Essner* 1130

Effect of injury on the cell. *Donald W. King* 1143

FEDERATION PROCEEDINGS TRANSLATION SUPPLEMENT 1147
